

Banking & Financial Security

Empower security investigators with better fraud-fighting tools

Banks lose over \$5 billion annually to criminals assuming false identities and conducting fraudulent transactions. With an increasing number of organized crime groups using highly sophisticated methods, banks need better tools to empower investigators to do a better job — fast.

3VR VisionPoint™ VMS is an intuitive video management system with a revolutionary search engine and leading crime investigation tools. The software integrates ATM and Teller data with analytic data such as license plates and faces. Powerful and easy-to-use, the 3VR solution fortifies your bank for maximum loss prevention from fraud, perimeter protection and enhanced branch operations.

SOLUTIONS

- ATM Skimming Investigation
- Transaction Investigation
- Check Kiting Investigation
- Card Skimming Investigation
- Account Fraud Investigation
- Customer Service Optimization
- Branch Operations Optimization
- Stopped Vehicle Detection
- Drive-up ATM License Plate Monitoring
- Enterprise Video Management

Real Success Story

Top 5 U.S. Bank Fights Fraud, Saves More Than \$300,000 Yearly

A financial institution — with \$1.2 trillion in assets and over 10,000 branches and 12,000 ATMs — was interested in solutions that could provide more usable evidence, greater efficiency, and better search and collaboration tools to fight financial crimes.

After the 3VR system was installed in over 4,000 branches, the bank saves more than \$300,000 annually on maintenance and management. Enabled by 3VR's forensic

search capabilities, investigators can search and pinpoint video associated with a specific account or transaction, time and location within minutes. The 3VR system also stores 800% more evidence.

In addition, the bank leverages CrimeDex, 3VR's unique social network for law enforcement and investigators. CrimeDex alone has helped the bank to solve \$300,000 in fraud cases in the first year.

Banking & Financial Security

Why 3VR?

- ✓ Revolutionary search engine takes reviewing of video from hours to minutes
- ✓ Case management tool allows you to build stronger cases for law enforcement by easily organizing video and forgery documents into case files
- ✓ Powerful forensic search capabilities and ATM integration allow you to search through faces, license plates, and transaction and account data
- ✓ Best way to detect and stop repeat fraudsters using face surveillance, license plate recognition, object tracking, loitering and other analytics
- ✓ Harness the power of CrimeDex, a social network of fraud, LP and law enforcement professionals, to identify and stop organized crime
- ✓ Advanced tools for addressing limited network bandwidth issues in a variety of banking environments

Value for Banks

When you invest in 3VR, you invest in an end-to-end solution that has delivered proven ROI and real reductions in fraud for countless financial institutions.

- ✓ **Fight fraud faster** with face and transaction searches across multiple branches and multiple cameras
- ✓ **Get lower total cost of ownership** — 3VR supplies everything you need, from software, hardware, video analytics to advanced applications that are easy to install, configure and maintain
- ✓ **Get higher ROI** with faster investigations, higher quality evidence, and fraud loss reduction
- ✓ **Reduce losses and liability** with the ability to uncover and evaluate suspicious activity that might otherwise go undetected across multiple locations
- ✓ **Optimize branch operations** using customer analytics to provide insights into behavior and activity
- ✓ A high-performing system that delivers results facilitates **a safer environment for employees and customers**
